

QHSE POLICY

Christyche LTD is a certified indigenous firm registered under the Laws of Ghana. Our focus is on providing a wide range of Business Solutions Services to the Mining and upstream Oil & Gas industry in Ghana and other West African countries. With our expertise in these fields, we are well positioned to give any technical support, and practical guidance and advice to both local & international companies striving to succeed in their operations here in Ghana while minimizing their operational cost.

We are also well positioned to assist all companies who are already operating in Ghana with support services on their sites onshore or offshore

Christyche LTD is committed to the delivery of quality and environmentally preferred services that lead to customer satisfaction and creates a habitable working environment for our staff & Clients. Thus, we are committed to:

- ⇒ Conducting regular trainings and awareness on all the standards [ISO 9001:2015 (quality management), ISO 14001:2015 (environmental management) and ISO 45001:2018 (occupational health and safety management)] required for its employees to develop and maintain their competence and skills to contribute to the effective functioning of the QHSE.
- ⇒ Communicating to all its stakeholders and employees the QHSE performance records and implementation strategies.
- ⇒ Instituting a system for monitoring, reviewing, and improving the QHSE performance.
- ⇒ Complying with all regulatory, legal, and statutory requirements relevant to its operations.
- ⇒ Pollution prevention
- ⇒ Reporting, investigating, and closing out all incidents and non-compliance.
- ⇒ Ensuring its top management demonstrates the leadership and commitment required to implement and maintain a standardized system.
- ⇒ Setting QHSE objectives and targets considering our business risks, stakeholder's interest, legal requirements as part of our QHSE implementation strategies.
- ⇒ Involving and consulting with our employees and stakeholders in all matters relating to the implementation of the IMS.
- ⇒ Maintaining, updating, and testing our preparedness for an emergency.
- ⇒ Also ensuring commitment to the continual improvement of the standards of QHSE (ISO 9001: ISO 14001 & ISO 45001)
